

# THE NEWARK ADVOCATE

NEWARK, OHIO, SATURDAY EVENING, JULY 12, 1919

Buy W. S. S. and Bring The Victory Shaft Here

TEN CENTS A WEEK

## THE WEATHER.

Showers and thunderstorms tonight and Monday. Somewhat warmer tonight.

## WAIT FOR OFFICIAL WORD FROM PARIS TO LIFT BLOCKADE

Details Will Be Furnished To American Firms Promptly.

## MAY NEED PROCLAMATION BY PRESIDENT WILSON

Movement of Goods to Germany Will Begin Immediately.

Washington, July 12.—With the economic blockade of Germany to be lifted today in accordance with the decision of the council of five in Paris, preparations were under way for immediate resumption of trade between the former enemy power and the United States. No official word of the action of the council had reached the state department early today but was expected momentarily.

Acting Secretary of State Polk in announcing yesterday that trade with Germany would be resumed as soon as the blockade was formally lifted said that details will be furnished American firms within 48 hours after legal experts decided whether it will be necessary for a formal proclamation to be issued by the president. Trading with Germany pending ratification by the senate of the peace treaty and the formal termination of the war will be carried on under a system of blanket licenses to be issued by the division of the state department which recently took over the duties of the war trade board.

Movement of American goods to German ports was expected to begin as soon as these licenses can be issued. Three ships already having been loaded. The shipping board has announced that direct steamship lines to Hamburg will be established from New York, Philadelphia, Boston, Baltimore and south Atlantic and Gulf ports as cargoes become available.

## NORTH RANDALL RACE MEETING SUCCESSFUL

Cleveland, O., July 12.—The opening meeting of the 1919 grand circuit race season came to a close at North Randall today after the most spectacular racing in the history of the track. Today's entire receipts were given to charity.

Four events are on today's card with the free for all race, in which six of the world's fastest horses will start. Directum J. Lillian T. Peter Nash, Single G. U. and Verle Patchen compose the field in this event, which is for \$2,500. The other races include a 2:30 trot, in which six starters, the 2:20 trot with nine starters and the 2:10 pace, in which eleven go.

## WEATHER PREVENTS LANDING OF DIRIGIBLE

London, July 12.—Because of adverse weather conditions in Scotland, the dirigible R-34, which was off the coast of Ireland today, has been advised by the air ministry to land at Pulteney, Norfolk. The airship is expected there before noon Sunday.

The British dirigible R-34, on her return flight from the United States, was approximately 300 miles from the Irish coast at 11 a. m. (Greenwich meridian time) today, according to a message received by the wireless press.

## HOG PRICES REACH NEW TOP PRICE, \$23

Chicago, July 12.—Hog prices have rounded out another even dollar additional for consumers. The market today reached a top of \$23 per hundred weight. The highest price ever known was \$22.95, a new record made yesterday.

It is explained that packing house products are making their way into the interior of Europe, rendering necessary the replenishing of stocks by other countries.

## DIRIGIBLE FLIES FROM AKRON TO WASHINGTON

Washington, July 12.—Completing a night flight from Akron, O., the new army dirigible A-4 circled Washington this morning and landed at Bolling field. The aircraft left Akron at 10 o'clock last night with a crew of three men. After replenishing its fuel supply, the ship will proceed to Hamilton field, Hampton, Va.

The A-4 is 162 feet long and 23 feet in diameter, and its total lifting capacity is 35,000 pounds.

**SOUTH HANGS SUE.**  
Youngstown, July 12.—After sending his sister out for a car from George Knebel, 45-year-old high school student, hanged himself from a beam in his room last night. His parents are absent at the time can assign no cause for the suicide.

**WILL SING AT ST. PAUL'S.**  
Hardin Shaw of Frankfort, Ky., a choir director and tenor soloist will sing tomorrow at St. Paul's Lutheran church the pastor, Rev. George Bohm. Schmidt announced this afternoon. Shaw is noted throughout Kentucky as a soloist.

## COOPER IS LEADING THE STATE.

J. G. Cooper, Newark mail carrier, today stands first in Ohio in the State-Wide contest among the letter carriers. Licking county today stands first in Ohio in the State-Wide contest for the \$10,000 Barre granite shaft. The letter carriers' contest ends Aug. 9. The Victory Shaft contest ends Sept. 1.

Both Cooper and Licking county can win if the people take an active interest in the purchase of W. S. S. The danger lies in over-confidence. This week's sale of stamps is much less than that of last week. Buy War Savings Stamps now.

## CARRYING THE PEACE TREATY TO PARIS

French soldiers, with copies of peace treaty, at Paris depot. This interesting photo from Paris shows two French soldiers, with officer, leaving the train at Paris with copies of the peace treaty which the Germans signed at Versailles.

## JUDGE DECLARES HOME RULE IS KILLED BY COURT

Gives Dissenting Opinion In Cleveland Rate Controversy.

Columbus, July 12.—In a dissenting opinion in the recent decision of the state supreme court in the Cleveland rate case, Judge Wanamaker declared by the decision, "Ohio home rule is dead without hope of repair or resurrection until the same shall be reversed."

"In the decision in the illuminating case," he said, "the court has recognized the right of the state public utilities commission to fix rates. This right he holds as he formerly held in the Cleveland telephone case, is vested in the city under its home rule charter."

"Municipal authority was believed to have been constitutionally born in Ohio in 1912," Judge Wanamaker said. "It has met an early death at the hands of this court under the mask of judicial constitutionality, which has proven the equivalent of judicial destruction."

The people of Ohio battled uneasily with the general assembly under the old order for half a century or more, a semblance of power for cities and villages. The question now, long will they have to battle against the supreme court of Ohio before they get what they have been lawfully voted for in 1912?

"Home rule" was betrayed in the telephone case. It is now being buried in this case," Judge Wanamaker said.

In the Electric Illuminating case the court remanded the case to the public utilities commission on the ground that the commission had failed to fix a schedule of rates within the maximum 10-cent rate which it had established in the Cleveland Telephone case.

In his dissenting opinion, Judge Wanamaker does not consider the provisions of the constitution for the rate cases have been fixed by the court. He says it is up to the court to decide whether the rates are just.

## CHARLES G. DAWES IS HONORED BY FRENCH

Paris, July 12.—Marshall Foch has conferred the French War Cross upon Brigadier General Charles G. Dawes of the U. S. Army. Dawes was given the decoration in recognition of his services in the field of the American Expeditionary Force.

During the course of operations in 1918 General Dawes assumed complete command of the American forces in the sector of the Argonne. He has been decorated with the French War Cross for his services in the field.

**WANTS CHINESE CONGRESSION.**  
Paris, July 12.—The Italian delegation has sent a note to the peace conference that Italy be given a congression at Tientsin, China. It became known today.

## FORMER ENGINEER HERE KILLED AT BENWOOD

Friends here have received word of the death of the late Benwood, a former engineer at a steel works and stepped off his engine in front of a C. M. & Z. engine. Years ago he ran an engine here on the Baltimore & Ohio road.

## AKRON CAR MEN STRIKE SAY RAISE IS REFUSED

Akron, July 12.—Akron street car men returned to work shortly after noon today following a walk-out which tied up city lines. This morning and forced thousands to walk to factories and stores. No strike vote was taken and the men went back to the cars without a vote on that issue.

Akron, O., July 12.—Akron street car men, numbering 350, walked out this morning without a moment's warning, completely tying up local traction traffic.

A meeting was called for 10 o'clock this morning when demands of the men were to be laid before officials of the Northern Ohio Traction and Light company. A C. Blinn, general manager of the company, said the action of the men came as a complete surprise. He declared he did not know any such action was contemplated. He added that he has placed the matter before the international headquarters of the car men's union at Detroit on the ground that the action of the men was not sanctioned.

Car men refused to disclose their demands early today. It was reported that a wage increase was promised in July and was not given. The men recently received a seven-cent an hour increase. They demanded 12 cents, it is said.

Factory workers and clerks were taken to work today in big trucks sent to all parts of the city by the big manufacturing companies and stores.

## GERMANS TOLD THAT BAN WILL BE LIFTED

Paris, July 12.—The German delegation at Versailles was informed today in a letter from the peace conference that the restriction of the treaty of peace to Germany had been accepted and that the raising of the blockade was decided to occur. Decision to raise the blockade was taken by the council of five today.

The allied supreme council met today to discuss the blockade question. The French government desired to raise the blockade and it will appear in the Journal officiel tomorrow.

The committee of four nations, and members of the allied council, met today to discuss the blockade question. The French government desired to raise the blockade and it will appear in the Journal officiel tomorrow.

**WANTS CHINESE CONGRESSION.**  
Paris, July 12.—The Italian delegation has sent a note to the peace conference that Italy be given a congression at Tientsin, China. It became known today.

## JAPS PERSECUTE KOREANS, CHURCH STATEMENT SAYS

Presbyterian Headquarters Issues Report On Alleged Atrocities.

## DECLARES WOMEN MISUSED AND DRIVEN INTO HILLS

Tells How Christians Were Driven Into Churches and Burned Alive.

New York, July 12.—A report of alleged Japanese atrocities in Korea was made public today at the headquarters of the Presbyterian church in America. It is a resumé of investigations by representatives in Korea of the church following the imprisonment of some of its missionaries by the Japanese authorities. The information from Korea was there transmitted by such means that it escaped the Japanese censor.

The report which is several thousand words in length is described by the Presbyterian in its introduction to the presentment as follows:

"The American papers are already full of overblowing with the report of atrocities in Korea. Knowing that another Belgium is on the world's hands it becomes necessary that the facts be stated by someone and that these be held to form the basis of constructive reformation later on. This article is written with this idea in mind."

"What is reported here can be duplicated in scores of places in Korea and some of the reports thus far received are even more harrowing than the ones we report. But they have not been definitely established by competent witnesses we omit them but confine ourselves strictly to incidents which are known beyond the shadow of a doubt to be true."

"Many of these reports are dupes in the extreme and our readers blood will boil indignation as ours has who have never witnessed these things. We leave the facts to convey their own lesson."

Hundreds of Koreans who had professed Christianity are said to have been driven by Japanese gendarmes at the point of bayonets into churches, there to be fired upon through open windows. Some were killed, and later to be perished in the flames as the places of worship were put to the torch. Most of these victims, it is narrated, were men. Surviving women and children were left in disolation.

A meeting was called for 10 o'clock this morning when demands of the men were to be laid before officials of the Northern Ohio Traction and Light company. A C. Blinn, general manager of the company, said the action of the men came as a complete surprise. He declared he did not know any such action was contemplated. He added that he has placed the matter before the international headquarters of the car men's union at Detroit on the ground that the action of the men was not sanctioned.

## 7 SOLDIERS DIE UNDER U. S. TRUCK

Car Plunges From Bridge Near Alexandria, Va., Crushing Men Under the Overturned Machine.

Alexandria, Va., July 12.—Two captains and four privates who met death in Greater Hunters Creek near here about one o'clock this morning when a truck in which they were riding plunged from a bridge over the creek. Twelve others comprising the remainder of the company were seriously injured, all of whom were seriously injured, were in the hospital at the camp.

The dead: Captain C. A. Heilmann, engineers, Brooklyn, N. Y.; Captain Charles L. Jassourat, Infantry, New York City; Corporal Albert P. Egan, McKeesport, Pa.; Private Victor Balits, a negro, Baton Rouge, La.; Private Joseph J. Speitz, Brooklyn, N. Y.; Charles S. Sweeney, Pennsylvania.

The dead officers and men were brought here and placed in a morgue around which a guard was placed. It was announced that their names would be kept until all had been identified and it was thought probable that announcement would be made through the department in Washington.

The heavy rain which fell this morning when the truck was passing over the bridge, which was a narrow one, caused it to slide off the side of the bridge and fall into the water. The truck was overturned and the men were crushed under it.

The men were brought here and placed in a morgue around which a guard was placed. It was announced that their names would be kept until all had been identified and it was thought probable that announcement would be made through the department in Washington.

## SHOWERS PROMISED FOR COMING WEEK

Washington, July 12.—Weather predictions for the coming week show showers and rain.

Washington, July 12.—Weather predictions for the coming week show showers and rain.

Washington, July 12.—Weather predictions for the coming week show showers and rain.

Washington, July 12.—Weather predictions for the coming week show showers and rain.

## R-34 CREW HAVE ALL COMFORTS OF HOME AND CAN EVEN TAKE MORNING PROMENADE

Upper picture shows passageway inside the huge bag of the R-34, taken while the big airship was in mid ocean. Tanks contain reserve gas. The passageway connects the gondolas. Lower photo shows the cook of the R-34 peeling potatoes in the clouds over the mid-Atlantic.

New York, July 12.—In a year from now we will be able to make a non-stop flight from England to Australia just as easily as we make this flight," said J. E. M. Pritchard of the British air ministry, just before the R-34 began its return trip to England.

The R-34 is already practically an obsolete type of aircraft because of the improvements achieved on dirigibles which are now being built," he continued. "We have ships building that are twice as big as the R-34 and will have a speed of 25 miles an hour faster."

"This flight was not really an amazing thing. It is the result of many years of work. It was not wonderful. What I call wonderful is the persistent effort of our work that led up to it."

**Call Dirigible Supreme.**  
"The part to bring out, it seems to me is that for long-distance flying the dirigible is supreme. To at least to make comparisons between dirigibles and dirigibles is really absurd. No one would think of taking a transatlantic liner for a channel trip. So for long distance aerial work you have the dirigible."

Major Pritchard emphasized the fact that the R-34 is flying from New York to England. The dirigible is a much more comfortable and safer than the airplane. The dirigible is a much more comfortable and safer than the airplane. The dirigible is a much more comfortable and safer than the airplane.

**THREATENED STRIKE Averted.**  
Cleveland, July 12.—The threatened strike of conductors and motormen of the Cleveland Southwestern and Columbus Railway scheduled for 4 o'clock this morning was called off when the men voted in favor of accepting a new offer from the company of an 8-cent an hour increase.

**TWO OFFICERS KILLED.**  
Little Rock, Ark., July 12.—Lieutenant J. L. Lemmon of San Francisco and Captain H. A. Lord of Brooklyn, New York, were instantly killed when a plane piloted by Lieutenant Lemmon was struck by another machine from the field. The second machine also fell but its occupants were not injured.

**AUTO HITS RUT; GIRL'S NOSE IS FRACTURED.**  
Miss Viola King, 12, of 121 E. 12th St., was injured in a collision with a car on Friday afternoon when she and her sister, Miss Viola King, were driving with the family when the car struck a rut in the road and overturned.

**STRIKE IS ORDERED.**  
Youngstown, July 12.—A strike of telephone operators and electrical workers affiliated with the International Brotherhood of Electrical Workers in Cleveland and Youngstown, O., was sanctioned today according to an announcement of Secretary Charles P. Lord of the Electrical Workers' Union.

**900 PHONE OPERATORS STRIKE IN CLEVELAND.**  
Cleveland, July 12.—A strike of 900 telephone operators and electrical workers affiliated with the International Brotherhood of Electrical Workers in Cleveland and Youngstown, O., was sanctioned today according to an announcement of Secretary Charles P. Lord of the Electrical Workers' Union.

## WILSON VETOES DAYLIGHT SAVING REPEAL MEASURE

Declares Measure Has Been Great Benefit In Other Countries.

**DECLARES REPEAL MEANS GREAT ECONOMIC LOSS.**  
Says Competent Men Urged Act After a Careful Study of Benefits.

Washington, July 12.—President Wilson today blocked the repeal of the daylight saving law by vetoing the agriculture appropriation bill carrying a rider for that purpose, and at the same time vetoed the sundry civil appropriation bill because it would limit the appropriation of the money for the rehabilitating and training of disabled soldiers.

Both important supply bills, carrying millions of dollars urgently needed in government activities and already long delayed by failure in the last congress must now be repassed without the features to which the president objected or repassed in present form over his veto by a two-thirds vote in both houses which today seemed unlikely.

At the same time, however, the president signed the Indian bill, the resolution authorizing New York and New Jersey to arrange a vehicular tunnel under the Hudson river and various other measures.

In regard to the agricultural bill the president sent the following communication to the house of representatives: "I realize, of course, the grave inconvenience which may arise from the postponement of the legislation at this time but feel obliged to withhold my signature because of the clause which provides at 2 o'clock a. m. on Sunday, October 26, 1919, next the act entitled an act to save daylight and to provide standard time for the United States approved March 19, 1918, be, and the same hereby is repealed."

# COOPER IS FIRST; CARRIERS' CONTEST WILL END AUG. 9

James G. Cooper, Newark, Ohio, led the carriers' contest, which will end August 9. The contest was held by the Ohio War Savings Committee. Cooper's sales for the month of July were \$14,445.40, which is a record for the county. The contest is being held to raise money for the war effort. Cooper's sales for the month of July were \$14,445.40, which is a record for the county. The contest is being held to raise money for the war effort.

JAMES G. COOPER.

and if he succeeds in heading the whole list of Ohio carriers as now seems probable he will be privileged to take Mrs. Cooper on the trip up the lakes. While there is no doubt that Cooper will win the local contest and will probably stand first in Ohio there is doubt about which one of the Licking county rural carriers will win the lake trip. There are three contestants: Ray Crawford of Hanover, Ray Clutter of Union and Oscar Foster of Johnstown. One of them will win the lake trip providing his sale of stamps reaches \$15,000. In the state wide contest Cooper has jumped from tenth place to first within a month. Licking county is ahead of every other county in the state in the Victory shaft contest which is now half over. The danger lies in overconfidence. If Licking is to win the \$10,000 prize every body must buy all of the W. S. S. stamps during the month of July and August. Mr. Cooper has just received a German helmet for having made the best W. S. S. sales record in the county between May 15 and June 15.

# LIGHTNING IS CAUSE OF ENG. CLINE'S DEATH

The body of John C. Cline arrived here last night and was taken to the home in Cedar street where funeral services will be held Monday afternoon at 2 o'clock. Rev. G. B. Schmitt will officiate and burial will be made in Cedar Hill cemetery. While Mr. Cline had been in ill health the past six months the exact cause of his death was not known until the arrival of Mrs. Cline. The family stated that during a storm Mr. Cline had taken shelter in the doorway of an out building near the house and was struck by lightning. Mrs. Cline saw the accident from the kitchen door and noticed his hat fall from his head and then he disappeared falling back into the building. The side of his head was bruised and his chin and neck had a few spots where the lightning left its mark. Mr. and Mrs. Cline were visiting Mr. Cline's father, Mrs. Anna Stynes at Phalax Station.

# START PAVING WORK WITHIN THREE WEEKS

City Engineer Wells stated this morning that work would probably start on the repaving of East Main street in three weeks. The city engineer's office has written the Ohio Highway department asking them to have a road engineer come to the city at the earliest possible time and until the answer is received from them it is not known how soon the paving work will start.

# COUNTY FARM AGENT ATTENDS CIVIC MEET

County Farm Agent E. J. Foley will leave for Cleveland, Ohio, tomorrow to attend the annual meeting of the American Farm Bureau. Mr. Foley will be in Cleveland for three days. He will be in Cleveland for three days. He will be in Cleveland for three days.

# 400 C. OF C. MEMBERS VOTE FOR DIRECTORS

At the annual meeting of the C. of C. held at the Hotel Hamilton, Newark, N. J., last night, 400 members voted for the directors. The directors for the coming year are: J. W. Howie, president; J. W. Howie, president; J. W. Howie, president.

My Christmas Present. An old fellow I know, and who has all sorts of money, says that when he was a boy living on a farm in Pennsylvania he all but got for Christmas was the privilege of shooting a gun once at a mark.—J. W. Howie's Monthly.

An anecdote that actually lifts itself from the ground with flying wings has been built by a French inventor.

# LITTLE USE MADE OF RIVERS

Great Waterways of United States Seem to Visiting Europeans to Be Neglected.

A Chinaman who travels in the United States is certain to remark: "What grand rivers, but how lonely!" By utilizing their rivers 400,000,000 Chinese have managed to get along without railroads, a feat incomprehensible in occidental countries. A visitor from continental Europe would say: "Your rivers of the Mississippi valley are unequalled as a gift of nature. But where is the commerce? Where the permanently deepened channels, united with correspondingly deep canals for heavy freight, like those connecting the Rhine, Danube, Rhone, Loire and others?" Our only answer could be that we have as yet scarcely made a beginning with our splendid streams in the most productive valley on earth, says the St. Louis Globe-Democrat. Yet with remarkable energy, promptness and success we constructed the great canal between the Pacific and Atlantic oceans, paying the entire cost ourselves and opening it on equal terms to all nations. One reason for the backwardness with our majestic rivers and their many navigable tributaries is that we have never taken up the subject with due seriousness and decisive purpose. We have been dismayed when told that the problem involved hundreds of millions in money. But since 1914, including the next fiscal year, congress has appropriated \$47,000,000. The word "impossible" should not be reserved for use against a profitable investment like improved waterways.

Necessity knows no law. A vast emergency presented itself that demanded the expenditure of the \$47,000,000,000 in five years. One of the first problems in the national emergency was transportation. The railroads, of course, were pushed so hard that the government felt compelled to take them in hand. Adequate waterways would have been of enormous advantage, but the big rivers heard little sound save their own dashing. "We can't afford to improve the rivers," was the old view. The obvious truth is that we can't afford not to improve them.

# CHART OF GREAT USEFULNESS

Record Said to Have Saved Many Thousands of Dollars for Big Telegraph Company.

One of the big telegraph companies not long ago completed a chart that shows all the wires used in the land service of the company. There are about 1,000,000 miles of wires in all. Each wire is represented by a line on the chart, and a number, with figures to indicate the material and the gauge. The chart also shows the route of every cut-in, whether it is for operation or for testing. Besides that, the map shows the cross connections between the various wires in each office, and even the office assignments of the various circuits.

The chart covers 70 sheets, each three feet by five. It mounted edge to edge it would form one map 27 feet high and 65 feet long. In order to handle the record conveniently, the sheets are mounted in steel frame panels that swing like the leaves of a gigantic book. It is said that this chart is the first single comprehensive record of the material, the size, the position and the purpose of every wire operated by the Western Union Telegraph company. Having such a record has already saved thousands of dollars that might have been spent in construction work had not the chart shown an alternative scheme that was better.

# The Parlor Bolshevik.

A parlor bolshevik at a tea in Greenwich village shrieked: "Our army of occupation is tyrannical and unjust. All the other political parties are permitted to hold meetings and canvass for votes, but the Spartacists are rigorously forbidden to push their cause in any way."

"Quite right, too," said Novelist Theodore Dreiser. "Why?" shrieked the parlor bolshevik. "Why is it right to squelch the Spartacist movement in this manner?" "Because," said Novelist Dreiser, "the Spartacists are putting too much ruination in reconstruction."

# To Boost U. S. Food Products.

The first agricultural trade commissioner to work in foreign lands for the interest of American food producers has been named by the United States department of agriculture. He is Edward A. Foley of San Francisco, Cal., who has been appointed to represent the department's bureau of markets in the United Kingdom. Mr. Foley will investigate conditions in the United Kingdom and study the marketing and distribution of farm products with a view to the development and improvement of foreign trade in American agricultural products.

# Economy in Iodine.

Instead of throwing away the hundreds of cents and cotton "mops" used in the surgical ward of a great army hospital they are now treated in an apparatus, shown in Popular Mechanic Magazine, in order to recover the iodine in them. Also did experimenters and chemists in the cooled upper tube, then falls back through the mops, carrying the iodine down with it in the bottom of the glass in the form of a mixture. The mops are saved, too, by subsequent washing and sterilizing.

Let's win the Victory shaft. Buy War Savings Stamps, and buy them now.

# LOOK AT EGGS-- BUT COUNT FOWLS AFTER THEY HATCH

Many people are telephoning to or otherwise inquiring of the War Savings Stamp committee inquiring where the Victory Shaft will be located. The answer given is that before a location is chosen the shaft must be won. It isn't safe to count chickens before they're hatched. Look at the eggs but never count the fowls until they arrive.

While it is true that the Victory Shaft contest is half over and that Licking county at present holds a lead over every other county in the state, the location of the shaft is by no means determined. One of the counties now below Licking in the race may by a special stamp drive force to the front unless the people of this county are alert.

The Shaft, a \$10,000 prize, goes to the county which sells the largest percentage of its W. S. S. quota during the three months ending September 1. Licking county maintains its present position in the race, she wins but in order to hold first place, stamps must be bought in large blocks by many and in small numbers by a large part of the population. No person, firm or corporation may own more than 200 stamps of this year's issue but every member of a family may own 200 stamps of both last year's and this year's issues. If all who bought the limit in 1918 will do so again before September 1 the Shaft will come to Licking county. If every person in the county will buy two more \$5 stamps before September 1st this county will win because the purchase of two \$5 stamps by every resident means \$10,000.

The Victory shaft, a beautiful granite memorial, given by the Barre, Vermont, manufacturers to Ohio, will be unveiled in the presence of the governor and the Rainbow division bands. This county has the "inside track" and can win the prize if enough people say they want it and will deposit some of their money in Uncle Sam's bank. Stamp sales will win the shaft.

L. F. Carl, manager of the Newark National Gas and Fuel company, bought 200 W. S. S. yesterday at \$1.25, thus making the gas company a member of the Limit club.

John J. Carroll, who owns all of the 1918 issue of W. S. S. the law permits, has subscribed for 200 stamps of this year's issue—the maximum amount allowed.

The Newark Trust company's annual report published by authority of President Metz announces that the Trust company sold \$84,167 worth of War Savings Stamps to its patrons in 1918.

The women of Hebron will meet with the Union township chairman, Mrs. Kirk, for organization next Wednesday evening at Masonic temple in Hebron. J. W. Bartholow, war work chairman of Hebron, says there is no doubt about Union township's buying its full share of W. S. S.

Postmaster Duckworth, Bankers R. B. Euxton and C. L. McCracken of Johnston want to know what is expected of Monroe township in the W. S. S. drive and they guarantee proper results. There's no doubt about Johnston and Monroe.

Both the Peoples Bank and the Pataskala banking company have bought the limit of W. S. S. and are ready to help make the sale a success in Pataskala. Postmaster Brown is hard at work and W. S. Needham, publisher of the Standard is lending both hands and his head to the work.

Utica hasn't been saying much lately but three Utica banks—First National, Farmers and Union Savings, together with Postmaster Hughes, Editor Harry E. Harris and the leading business men of the town are expected to get in the drive soon and make Utica and Washington township record 100 per cent.

B. & O. Superintendent S. U. Hooper at a staff meeting held this morning had the W. S. S. Victory shaft campaign explained in detail and urged all of the B. & O. men to take an interest in the

drive and help to land the shaft for this county.

Gomer R. Williams, 215 South Pine street has just bought 200 stamps (\$2.50) the sale having been made by Mrs. J. B. Moore.

# DELIVERY HORSE TAKES MORNING CONSTITUTIONAL

While Fred Hothorn was delivering bread to the Fulk grocery in Granville street, the horse hitched to the Hothorn bakery wagon ran away early Saturday morning. With the heavy hitching weight attached to the inside the horse started down Granville street. The Granville bus made an effort to stop the runaway but going past Granville and Locust streets turned north on Hudson avenue and ran some distance before being stopped.

No damage was done to the wagon which was heavily loaded with bread for the Saturday morning delivery, and no bread was lost. The horse was cut around the feet by the swinging weight.

Amendment to Prayer. Little Donald Frost, 3 years old, says his prayers every night, and one evening after saying his regular prayer, finished up by saying: "Dear Lord, please don't let Brother Bill put his cold feet on me."—Exchange.

Let's win the Victory shaft. Buy War Savings Stamps, and buy them now.

# B. & O. MEN ARE INTERESTED IN DRIVE FOR VICTORY SHAFT

At a meeting of his staff this morning, Baltimore & Ohio Railroad Superintendent S. U. Hooper presented the War Savings Stamp proposition in detail and urged that the matter be taken up with every employee of the B. & O. system in Newark.

Mr. Hooper explained Licking county's position in the state wide race for the Victory shaft and expressed the belief that the B. & O. men would do their full share towards winning the \$10,000 prize which now seems to be within this county's grasp.

The B. & O. men made a great record in the several Liberty loan drives and the members of Mr. Hooper's staff believe they will respond generally to the W. S. S. call. The staff will conduct the drive among the B. & O. employees in Newark and their help and influence will very largely determine the location of the Victory shaft. Licking county is now leading every other county in the race.

Fills Jury Wheel. C. L. V. Holtz of Madison township and Samuel Frezel of Pataskala, the jury commission, are engaged in selecting jurors to fill the wheel on Monday. The jury commission will fill the jury for common pleas court and also for petit and grand jurors.

Licking County is now First in Victory Shaft race.—Buy W. S. S.

The Three-Flag record was broken by H. C. (Hap) Scherer of Tacoma, Washington, when he shaved off five hours and two minutes from the former record.

The route extends from the Canadian border through Washington, Oregon and California, to Tijuana, Mexico. Traveling from one country through the second, into the third is the source of the name given the tour.

The route was made and record established back in 1915 by "Cannon-ball" Baker on an Indian motorcycle, his time being 81 hours 15 minutes. Two years later Roy Arley cut the record to 72 hours 25 minutes on his Henderson. Last August Wells Bennett took his big Excelsior over the course to the time of 70 hours flat.

"Hap" Scherer cut the record to 64 hours 58 minutes. He rode a Sport Model, the new medium weight machine, a creation of the Harley-Davidson Motor Co. Two features mark the feat. Scherer traveled almost one hundred miles farther than other record holders on account of road conditions and he traveled this 1716 miles at an average, day and night, of 26.4 miles per hour.

The famous Three-Flag route starts Canada, to the Pacific Ocean—1716 miles.

the California beaches last year before he became so very famous and before they left their sunny clime to tour in the chilly north. The girls were all betting on Jack to win, they told him, when they met him in Toledo.

# HOME GROWN CELERY APPEARS ON MARKET

The markets were well stocked with produce this morning. The first home grown celery is here from Willard and is selling at 6 cts a stock (3 for 10), 8 and 10 cents. Prices of vegetables remain about the same; potatoes 4 and 5 cents a pound, tomatoes 20, 25 and 30 cents, cabbage 7 cents, cucumbers 8 and 10 cents, beets 5 cents bunch (3 for 10), string beans 15 cents quart, now peas 25 cents 14 pods. Berry prices remain high, raspberries and blackberries are 30 cents quart, currants 25 and cherries 25 and huckleberries 25 cents a pint. Peaches are 2 lbs for 25 cents and apples 2 lbs for 25. Lemons are a little cheaper at 5 for a dime. Cantaloupes are especially nice today and are 10, 12 1/2, 15, 20 and 25 cents. Watermelons are from 60 to 85 cents.

Butter is still 58 and 60 cents and eggs 45. Spring chickens are from 75 to 80 cents a pound and nice ones can be had from 85 cents to \$1.50 a piece. Roasts and steaks are 50 cents a pound and are any place from \$1.15 to \$2.00.

# SOCIAL AFFAIRS

Wednesday evening a number of young people gathered at the home of Mr. and Mrs. O. T. Wiley of North 1st street in honor of Joseph Coulter and little Miss Josephine. Thrupp of Glasgow, Pa. Games and music was enjoyed by all who were present. At a late hour light refreshments were served to the following guests: Misses Marie, Agnes, Esther and Ellen Kline, Mary, Della and Lena Vierling, Martha and Elizabeth Cooper, Mary Fromholtz and Betty Smith; Messrs Joseph Dimm, Carl McGlade, James and Thomas Jones, George Howard, Hugh Cooper, Edwin and Paul Kline, and Wilber Keatchner and Joseph Coulter and Josephine Thrupp. Mrs. Wiley was assisted by Miss Thelma Wiley.

Guy Crouse, who recently returned home from over seas, was honored by fifty of his friends Wednesday evening with a wienner roast. The evening was spent in games and music.

Mrs. Homer Robinson entertained at her home in Irwin avenue on Friday afternoon with a pretty children's party honoring the third birthday anniversary of her little daughter Rosemary. Tiny tables and chairs were placed on the lawn where luncheon was served. The little guests wore paper hats with plumes and were given cones filled with candy and an American flag as favors. Twenty children spent the afternoon at the Robinson home.

The home of Miss E. Nile Reiman at Gratiot was the scene of a very pleasant gathering Sunday.

For the past week Miss Redman has entertained a house party of the following guests: Mr. and Mrs. H. F. Johnson and daughter, Miss Ethel Johnson of Boise City, Okla.; Mr. and Mrs. Albert Ewers of San Juan, Texas and Mrs. D. Z. Burton of Columbus.

Early Sunday morning the above party was joined by Mr. and Mrs. Wm. Holversott and Mrs. Clarence Uich of Marion Wm. Dutton of Agosta, Mrs. Laura Gray and B. Z. Burton of Columbus.

All were former residents of Gratiot and spent the afternoon greeting friends and acquaintances.

# World's Largest Building.

The Vatican palace at Rome is the largest building in the world, covering 13 1/2 acres, but with its additions and enlargements it was several centuries in building. The most extensive building in the world constructed at one time is the Pennsylvania station in New York city, which occupies eight acres of ground and has exterior walls measuring about one-half a mile. The capitol at Washington covers 153,112 square feet, or nearly four acres.

Read Advocate Want Ads tonight.

# "COTTAGE BY THE LAKE IN THE WOODS"—IDEAL VACATION RESORT FOR REST AND QUIET BUT IT AFFECTS SOME PEOPLE STRANGELY.

# WHAT'S NEW IN SUMMER VEILINGS

Here are two of the smartest new veils which the summer has brought forth. The one on top is a square mesh with very delicate tracery which can not be seen in the photograph so fine are the silken threads which are used. It covers the hat and hangs loosely over the face with about half-yard ends hanging down the back. It is a charming finish for milady's satin-clad figure. The novel veil pictured below is a Paris creation. It is of a fine brown mesh with chenille applied in eccentric designs. The veil is round and dropped over the hat, with the center of the veil at the center of the crown. It then falls in full folds about the shoulders.

# OBITUARY

## Mrs. Sarah West.

Funeral services for Mrs. Sarah West were held this morning at 10:30 at the home in Hilley street. Rev. Kemper officiated and burial was made in Cedar Hill cemetery.

## Mrs. Hannah D. Rogers.

Funeral services for Mrs. Hannah D. Rogers who died Thursday at her home in Granville will be held Sunday afternoon at 3 o'clock and burial will be made in Maple Grove cemetery.

## Miss Emma Williams.

Mrs. Emma Brooke Williams, aged 82 years, widow of Ebenezer Williams, a former druggist of this city died Thursday at the home of her son R. F. Williams, 256 1/2 Summit street, Columbus. Death was due to paralysis. Mrs. Williams lived here many years and was a faithful member of the Presbyterian church.

## Miss Laura Lane.

Miss Laura Lane of this city is a niece of the deceased and C. H. Hindel is a nephew.

## Private funeral services.

Private funeral services will be held Sunday afternoon at 4 o'clock in the home. Rev. G. H. Benn of the Indianapolis Presbyterian church will officiate and burial will be made at Cedar Hill, Monday at 10:30 o'clock.

## Addison Weston.

Word has been received here of the death of Addison Weston, aged about 40 years, Wednesday at Spokane, Washington following two operations for mastoid trouble. He was a son in law.

# Child's Death.

Isaac Raymond Benner, seven months old son of Mr. and Mrs. Clarence Benner, died early this morning at the home 18 Postal avenue. Funeral services will be held Sunday morning in the home and burial will be made in Barnes cemetery.

# Cause for Thankfulness.

The first reason for being thankful in the morning is that you have lived to see the dawn of another day, with opportunities to finish something begun the day before and to begin something that you may be able to do better than you have ever done anything before.

# Long Sentences.

In "Les Miserables" Victor Hugo has one sentence of a hundred lines, and earlier in the book, in one of the chapters descriptive of Waterloo, there are over 50 lines without a full stop. England's record is held by the foreign enlistment act, one section of which reaches its six hundredth word.

# Art's Inspiration.

A famous artist, who had art classes, had forbidden smoking in his studio. One day, after being out for half an hour, he re-entered the studio suddenly and saw one student with a lighted cigarette in his fingers, which he tried to conceal. With an air of assumed playfulness the artist approached the offender and said: "A strange crayon you have there, my friend. May I ask what you propose to draw with that?" "Clouds!" replied the student.

# Sincerity First Requisite.

And least of all is sincerity a quality that can be successfully imitated. It twines through the whole emotional fiber; it has its roots in the heart. "Sincerity gives wings to power," is the way an old proverb happily puts it. Go through any list of acknowledged leader of business and professional life. You will find there are few who have not been pre-eminent sincere.—H. Addington Bruce.

# Animals and Earthquakes.

One of the mysteries still unsolved is that of the sense by which the lower animals become aware of the approach of earthquakes. Birds and rats become alarmed and try to escape. Super-sensitiveness to faint shocks scarcely gives satisfactory explanation, for modern seismographs are very sensitive.

# Keeping Elder Sweet.

To keep elder sweet place in each barrel immediately on making, mustard, four ounces; salt, one ounce, and ground chalk, one ounce. Shake well. Or elder may be preserved sweet by canning in airtight cans after the manner of preserving fruit. The liquid should be first settled and racked off from the dregs, but fermentation must not be allowed to commence before canning or it will not keep.

# Goldsmith's Masterpiece.

Goethe, at the time of publication, said that "The Vicar of Wakefield" was one of the best novels ever written, and called it a "poetic idyll." It is certainly the musical prose of a true poet.—Julian Hill.

# A gem containing from 10 to 20 per cent rubber has been discovered in the Malay peninsula.

# FILES DEMURRER TO SUIT FOR DAMAGES

Harold Wilson, as defendant in the case of James Welsh, guardian for Roy Welsh vs. Harold Wilson and others, has filed a demurrer and brief. Welsh is seeking to secure \$5000 for injuries Welsh received when he collided with the machine of Wilson in Hudson avenue.

# PERSONAL

Mr. and Mrs. P. J. Haddel of North Williams street and Mrs. J. W. Cline daughter Lucy of Canton, have returned home from an automobile trip to Mammoth Cave, Ky.

Harley Smart, a first-class machinist mate of the submarine case 389, has returned to Boston after spending a 14-day furlough with his parents, Mr. and Mrs. William Smart of Decrow avenue.

Miss Marie Clouse returned today from St. Louis where she has been the guest of her sister Mrs. A. M. Keller, wife of Dr. Keller, for the past two weeks.

Mr. and Mrs. R. F. Frasier and sons of Chicago are the guests of Mr. Frasier's brother F. F. Frasier of Granville street.

Mr. and Mrs. J. Henry Miller left today on an auto trip. Mr. Miller will go to Cleveland on business and Mrs. Miller will stop in Lorain to visit her sister, Mrs. Ralph Wright (Alice Adams).

Misses Mae and June Duerr spent Friday the guests of friends in Columbus.

Mr. and Mrs. Robert G. Anderson and daughter, Elizabeth Anna, and Mrs. Wm. A. Jackson, have returned home after visiting relatives and friends in Lancaster and Columbus. While in Columbus they attended the centenary.

Mrs. Robert Burns Harvey, who has been the guest of her cousin, Mrs. Robert G. Anderson, returned to her home in Youngstown today.

George A. Benner, Company A, Third artillery park, has returned to his home in Gamor avenue from Camp Devens.

# 25 Years Ago

(From Advocate July 12, 1894) When the fire alarm was turned in Friday, the hammer broke off the fire bell.

The thermometer registered 91 at noon today.

There will be another excursion to Granville over the electric road this evening.

Misses Flo and Marie Haughey entertained with a dance last evening at their home in West Main street.

# 15 Years Ago.

(From Advocate, July 12, 1904) The city council has granted a franchise to the Newark Gas company.

While Mr. Sheet, a farmer living west of Newark, was hitching his horse Tuesday night to drive home, the animal fell down three times, breaking the harness, bruising himself and twisting the shafts of the vehicle out of shape.

New fire escapes are being placed on the building occupied by Swisher's cigar factory, between Fourth and Fifth streets.

# Washington's Advisers.

When Washington formed his cabinet it had but four members, the interior department being unknown, the war and navy departments being under one head, and the postmaster general being subordinate to the treasury. Nevertheless of these four positions, he gave two to Virginians, Secretary of State Jefferson and Attorney General Randolph; one to New York, Alexander Hamilton, and one to Massachusetts, Henry Knox.

# Art's Inspiration.

A famous artist, who had art classes, had forbidden smoking in his studio. One day, after being out for half an hour, he re-entered the studio suddenly and saw one student with a lighted cigarette in his fingers, which he tried to conceal. With an air of assumed playfulness the artist approached the offender and said: "A strange crayon you have there, my friend. May I ask what you propose to draw with that?" "Clouds!" replied the student.

# Sincerity First Requisite.

And least of all is sincerity a quality that can be successfully imitated. It twines through the whole emotional fiber; it has its roots in the heart. "Sincerity gives wings to power," is the way an old proverb happily puts it. Go through any list of acknowledged leader of business and professional life. You will find there are few who have not been pre-eminent sincere.—H. Addington Bruce.

# Animals and Earthquakes.

One of the mysteries still unsolved is that of the sense by which the lower animals become aware of the approach of earthquakes. Birds and rats become alarmed and try to escape. Super-sensitiveness to faint shocks scarcely gives satisfactory explanation, for modern seismographs are very sensitive.

# Keeping Elder Sweet.

To keep elder sweet place in each barrel immediately on making, mustard, four ounces; salt, one ounce, and ground chalk, one ounce. Shake well. Or elder may be preserved sweet by canning in airtight cans after the manner of preserving fruit. The liquid should be first settled and racked off from the dregs, but fermentation must not be allowed to commence before canning or it will not keep.

# Goldsmith's Masterpiece.

Goethe, at the time of publication, said that "The Vicar of Wakefield" was one of the best novels ever written, and called it a "poetic idyll." It is certainly the musical prose of a true poet.—Julian Hill.

A gem containing from 10 to 20 per cent rubber has been discovered in the Malay peninsula.

## The Throat of the Cheney

Where It Gathers Tones Like a Living Voice

THE art of tone reproduction has reached new heights in this remarkable invention of Forest Cheney, embodied only in Cheney Phonographs.

Just as sounds are gathered and controlled in a living throat, so sound vibrations are controlled in the acoustical throat of the Cheney.

# The CHENEY PHONOGRAPH

This exclusive Cheney invention keeps every instrument in an orchestra record in proper balance—tones are reflected perfectly without possibility of distortion.

No other phonograph can duplicate the serene purity or the richness of Cheney tones—the Cheney method is covered by basic patents.

Cheney period cabinets, following the finest traditions of Old English furniture design, harmonize in every environment.

## AUBURN BEAUTY "SIX" ON DISPLAY AT THE CENTRAL OHIO SALES CO.

The Central Ohio Motor Sales Co., at 40 So. Second street, are showing an automobile of unusual merit and beauty. Whether you are interested in buying a car or not, it would pay you to drop in and give the Auburn Beauty Six the "once over."

It is all that it's name implies. Today you rightly demand beauty in a motor car and you will find it completely expressed in the Auburn Beauty Six.

Beauty in a motor car finds many forms of expression—beauty of design, beauty of power, beauty of possession, beauty of permanence and beauty of price. It sums up in a word all the desirable attributes of the car you desire to own and drive, and it is this inclusive beauty that has given the Auburn Beauty Six its national popularity.

Drop in at your earliest convenience and let us show you the car. You will get much satisfaction out of seeing the car, and knowing that it does possess all the qualities we claim for it. 7-12-11

**Needle Penetrates Finger.**  
While washing curtains Thursday, Mrs. Isabel Stewart, mother of Officer T. H. Stewart, ran a long needle which had been placed in one of the curtains, into the fleshy part of her right hand at the thumb. The needle broke off and about an inch and a quarter was imbedded under the bone. It was necessary to have an X Ray taken to locate it and Friday Dr. Smith and Boyer removed the needle. Mrs. Stewart is about 70 years of age and lives at 118 North Cedar street.

**Attends Staff Meeting.**  
H. S. Conley of Columbus, formerly of Newark, train dispatcher for the B. & O. and the Pennsylvania with C. & N. division, now acting train master, was in the city today attending official staff meeting of the B. & O. in superintendent's office.

**Transferred to Minneapolis.**  
Robert Kuster, son of J. S. Kuster, who was returned recently from France, where he was clerk to the peace commission at Paris, has been sent to Minneapolis. He had hoped to receive a furlough home but instead was ordered to Minnesota.

**Libel Case Dismissed.**  
A charging libel was heard before Mayor Aldrich this morning in which Yorko Adjich, charged George Covish with slandering her. Both are foreigners and after hearing the evidence, the case was dismissed.

**Joins Hudson Sales Force.**  
Thomas Joyce of Columbus will be connected with the Hudson sales rooms in South Fifth street for the summer. He has been in the automobile business in Columbus for the past year and previous to that was in the drygoods and grocery business in Delaware and Johnston.

**Called Home by Death.**  
Paul Tanner, who is located in Chicago has been called to Newark by the death of his grandmother, Mrs. J. H. Tanner.

**Boy Scouts Council.**  
The Newark Council Boy Scouts of America will meet next Tuesday evening at Trinity Parish House for the purpose of taking up organization work. Condition is satisfactory.

**Mass at Johnston.**  
Rev. Father E. M. O'Boylan, will celebrate mass in Johnston, Sunday morning at 9 o'clock, followed by a sermon.

**The Making of a Match.**  
Thorpe gives the following proportions for match head and for striking surface: Head composition: Potassium chlorate, five parts; potassium bichromate, two parts; glass powder, three parts; gum, two parts. Rubbing surface: Antimony trisulfide, five parts; red phosphorus, three parts; manganese dioxide, one and one-half parts; glue, four parts.—Electrical Experimenter.

**Battle of San Jacinto.**  
The battle of San Jacinto was fought April 21, 1836, between 1,000 Mexicans under Santa Anna and 800 Americans under Sam Houston. Santa Anna was defeated and he and 700 of his men were captured, 600 killed and 208 wounded. The Texas loss was 2 killed and 23 wounded. This battle decided the independence of Texas, and the day is observed in the state as a holiday.

**Our War With Spain.**  
On the 18th of April, 1898, the United States senate and the house of representatives declared jointly that the Cubans "are and of a right ought to be free and independent" and empowered President McKinley to use the land and naval forces of the United States to their utmost capacity to carry the resolution into effect. This resolution constituted our declaration of war against Spain.

**Worst of Answers.**  
A certain Kansas City physician will never know just how near death he was the other day when, after a thorough examination of probably the brightest, sweetest and altogether supreme nine-month-old baby in the world, the mother asked: "Well, what do you think about my baby?" and he said: "Oh, it's a normal baby."—Kansas City Star.

**Readers.**  
There are four sorts of readers: those glass readers, whose reading runs in and out and leaves nothing; sponge readers, who imbibes all but only to give it out again as they got it, and perhaps not so clear; jelly-bag readers, who keep the dregs and refuse, and let the pure run through; diamond readers, who cast aside all that is worthless and hold only gems.

**The Right View and the Wrong.**  
"The man who makes good doesn't wait for opportunity to knock; he has the door wide open," says an exchange. That's the right spirit. The other day we heard a chap complaining because old Opp didn't stick his toe in the door like a book agent.—Boston Transcript.

**God of the Lower World.**  
In one temple of Japan the image is a Japanese conception of the god of the lower world. The figure has an unusual history. An image maker, it is said, died. When he appeared before the lord of the other world, he never represented the lord of the world properly, and that he must return to earth and make a correct likeness. The figure is pointed out as the result of the order. It is so horrible with its red face and malevolent glare that the story seems plausible.

**Alexandria.**  
Alexandria, founded by the world conqueror, Alexander the Great, is an Egyptian city that is eager to lose its connection with the faraway past and become completely modernized. Fate has favored this ambition, for the wonders that Cleopatra knew have been eaten by fire or swept away by the sea. Alexandria is a city of trade and fashion, dominated by prosperous Europeans too deeply absorbed in the stock exchange to be even vaguely interested in the romantic side of their city.

**Frank Tree.**  
We are told that in Kentucky there is a tree bearing each year a crop of walnuts and a crop of mulberries, and the curious phenomenon is accounted for by the supposition that a mulberry seed fell where a walnut lay in the ground, and the young shoots came up side by side and united their forces into one solid trunk. This supposition seems feasible from the fact that the bark of the tree is on one side that of walnut and on the other that of the mulberry.

**Death Valley.**  
Death valley is a narrow valley between the Panamint and Funeral mountains in California. It is traversed by the Amargosa river, which is usually a dry channel, though probably it was formerly full of water. The level of the valley is covered with salt, supposed to have been brought by the torrents from the surrounding desert and left on the evaporation of the water. Death valley is considered to be the hottest and driest place in the United States. A temperature of 122 degrees has been observed.

**Boring Glass.**  
The Scientific American says: Make a solution of 1 oz. camphor, 1 1/2 oz. spirits turpentine and 4 dr. of ether. Keep the end of the drilling tool wet with this fluid. The sharp corner of a freshly broken point of a file is one of the best drilling tools for this purpose.

**Asbestos Deposits.**  
In the Kotzebue sound region, western Alaska, there are asbestos deposits said to rival the richest in the world. Asbestos, in its natural or virgin state, is as white as snow, soft as the softest silk and lies in long strings or layers, easily torn apart with the fingers.

## REPORT OF CONDITION OF THE FRANKLIN NATIONAL BANK

At Newark, in the State of Ohio, at the Close of Business on June 30, 1919.

RESOURCES

JOHN A. CHILCOTE,  
ROBERT H. HUNT,  
Deputies.

## LAST DAY OF CENTENARY WILL BE THE LARGEST

Columbus, July 12. Today, the last "full blast" day at the Methodist centenary exposition here, which has been in progress since June 20, promised to surpass all others in point of attendance, officials say. Sergeant Alvin C. York, "the great hero of the war" and Lieut. Commander E. C. Reed of the NC-4 will speak during this afternoon.

Sergeant York, accompanied by his brother George, Professor G. W. Dwyer of Vanderbilt University and George M. Welch, of Tennessee, railroad commissioner arrived in Columbus early this morning from his home in Pall Mall, Tennessee. Lieut. A. C. Reed, accompanied by his wife is to arrive before noon.

Both York and Reed are to be given separate receptions by centenary officials. They will be presented with gold of the Methodist church south, will be presented with his medal by Dr. Fred B. Fisher, assistant director general of the exposition. Dr. W. E. Benthin, of the Methodist church south, will make the presentation to Reed.

Centenary officials, while declaring the exposition has been a "glorious success" said today the receipts from attendance would by no means cover the expenses.

Both Dr. S. Earl Taylor, director of the exposition and George M. Fowles, treasurer, estimated that the exposition cost \$1,000,000.

"The exposition," Dr. Taylor said, "was given as a part of a conservation movement. It was not given for money." Special religious services tomorrow will officially bring the exposition to a close.

Washington—On receipt of cargoes for steamships, lines to Hamburg and Bremen will be established according to statement of shipping board today.

Washington—Representatives of 54 affiliated international unions of workers in steel industry adopt resolution that strike vote be taken among memberships.

Paris—Council of five decides to lift blockade of Germany tomorrow. It was said tonight.

Longview, Texas—Two hundred Texas national guardsmen, arriving here to take charge of trouble between whites and blacks in which four whites were wounded.

Dayton—Lieut. Frank S. Caldwell, aged 28, of Belfast Ireland, member of British royal air force killed at McCook field here when parachute failed to open in an experiment drop from plane 700 feet.

Cleveland—Union telephone operators vote to strike tomorrow morning. They demand union recognition.

Toledo—Toledo Railways and Light company will cease to operate cars at midnight July 30, according to ordinance signed today by Mayor Schreiber.

Dictaphone Calls Mother.

A dictaphone with a megaphone and a loud-speaking amplifier in the receiver is shown in Popular Mechanics Magazine. With the receiver fastened to the baby's crib in the nursery upstairs, and the megaphone placed in the parlor below, the arrangement works to satisfaction. Mother may go about her housework, while baby will sleep soundly, undisturbed by the noise of the living room, but if he should awaken, his cries will be instantly heard downstairs.

The first member of a royal family to figure in a love affair with an Indian was Louise Philippe, king of France from 1830 to 1848.

## Telephone Service.

THIS IS A PROSPEROUS COMPANY.

We are often charged with being a "prosperous company".

We pay 6 per cent interest on bonds and preferred stock and 7 per cent on common stock, for a total capitalization some thousands of dollars less than the total cash investment in the plant and business of the company. The surplus over and above this interest and dividend requirements is negligible, some months it is a deficit.

We are able to maintain the plant adequately and properly.

We are able to pay decent salaries and wages.

All of this means that on the whole this is a reasonably prosperous company.

Would you have it otherwise? If so how do you think it would affect your telephone service?

Is it better for Newark to have a prosperous telephone company or an unprosperous telephone company?

These questions answer themselves.

THE NEWARK TELEPHONE COMPANY.

Charles E. Hollander,  
General Manager

LET'S WIN THE VICTORY SHAFT—BUY W. S. S.

**Says the Office Humorist.**  
The cleverest gardener in the world cannot grow an oak tree out of a rose bush. But the stupidest pipe smoker can make the "ash" grow inside the "brier."

**Silly Jamie.**  
The other day Jamie came running into the house crying at the top of his voice. He was followed by Jane, who explained by saying: "Mother, I'm 'shamed of Jamie—he's so unbrave, crying 'cause a little dog chased him."

## The Adirondacks

There's magic in the word "Adirondacks." It's the spirit of our pioneer ancestors calling us back to Nature. It's the urge of the trails through the woods, by the lakes, over the hills. It's the dip of the paddle, the song of the reel, the scent of the pine. It's forgetfulness of work and worry; it's sport and fun. It's freedom.

Of course, you're going to take a vacation this summer! Go to the Adirondacks, this beautiful territory of the Indians is truly a playground paradise—natural, unspoiled, refreshing. Other attractive resorts are:

Saratoga Springs, Lake George, Lake Champlain, The Thousand Islands, Niagara Falls.

Any number of camps, fine resort hotels, or boarding houses, and accommodations to fit every purse. All kinds of sports, fine golf and tennis. Your vacation days in this section will make you keen and fit for the work to come.

The United States Railroad Administration invites you to travel and offers Summer Excursion fares. Ask your local ticket agent to help you plan your trip or apply to nearest Consolidated Ticket Office, or write the nearest Travel Bureau, stating booklet desired.

## One Thing More

Most car owners know that this is the place to have their batteries tested with a hydrometer.

—That it is the place to buy a Bone Dry Battery with Willard Threaded Rubber Insulation—which carries with it the evidence of battery newness.

—That it is the place to come for battery charging, repair, and a rental battery.

But, one thing more—it is the place to come, just as soon as you buy your new car, to have your battery registered and get the benefit of Willard 90-day battery insurance.

Drive in, whether you have bought a new car or not. Perhaps we can give you some battery information that will mean longer life to your battery and fuller use of your car.

Upturned hull of German battle cruiser "Seydlitz" and German officers and men being taken alongside H. M. S. Ramillies, after scuttling their own craft.

These pictures were taken immediately after the last treacherous act of the Germans—the sinking of their own surrendered navy at Scapa Flow. Between seventy and eighty German warships of all descriptions were scuttled at the most the same instant by their crews, which put off in small boats and were picked up and taken into custody by the British. Under the terms of the armistice, skeleton crews of German sailors were placed aboard the boats when they were surrendered to the allies.
